AWARDS

2020 | DIPLOMA WITH MERIT
2019 | DIRECTOR'S LIST 2018 / 2019
2018 | DIRECTOR'S LIST 2017 / 2018

EDUCATION

DIGIPEN SINGAPORE 2022 - 2026
BSC IN COMPUTER SCIENCE IN INTERACTIVE MEDIA AND GAME DEVELOPMENT

- CGPA: 4.02 / 5.00

TEMASEK POLYTECHNIC 2017 - 2020
DIPLOMA IN GAME DESIGN & DEVELOPMENT

- CGPA: 3.76 / 4.00

ABOUT ME

Hi! I'm Jun Rong, an aspiring undergraduate student specializing in software development with a passion for creating memorable experiences. I am proficient in C# and C/C++, with a solid understanding of programming principles and Unity game engine.

I'm ready to collaborate with others to turn innovative ideas into reality!

EXPERIENCE

RAZER INC. May 2025 - Present
SOFTWARE ENGINEER INTERN

- Designed and built a physical testing rig using electrical components and 3D-printed parts to support mouse QA automation.
- Wrote and maintained automated test cases using Robot Framework and Python, and deployed them through Jenkins.
- Developed internal tools to automate tasks and speed up the team's workflow.

FIVERR 2023 - 2025
FREELANCE GAME QA ANALYST Fiverr Link

- Collaborated with clients globally, offering tailored testing services to meet specific project needs and deadlines, achieving perfect 5-star rating across all orders.
- Analyzed and documented bugs, glitches, and performance issues, offering actionable insights that led to improvements.

THE KETTLE GOURMET 2019 - 2020
GAME PROGRAMMER & 3D MODELLER INTERN

- Developed and published mobile applications on Android and IOS mobile platform stores.
- Utilized agile methodologies, including sprint planning and iterative development, to meet project deadlines.

EXPERTISE

LANGUAGES:

C | C++ | C# | JAVASCRIPT | PYTHON

DEVOPS:

SELENIUM | JENKINS | ROBOT FRAMEWORK

SOFTWARES:

UNITY | BLENDER

FEATURED PROJECTS

KEEP IT BRIEF

8 Months | 2024 - 2025

Tools programmer

Game Trailer: YouTube Link

- Created user-friendly UI components and interfaces within the editor, allowing artists and designers to easily adjust game parameters, assets, and scene elements with ease.
- Integrated memory tracking and performance visualization tools, enabling the team to identify bottlenecks, optimize resource usage, and improve frame rates in game.
- Communicated effectively with team members to identify needs, make critical design choices, and streamline asset integration and testing processes, improving overall productivity and project progression.

RICOSHAMAN

8 Months | 2023 - 2024

Technical lead

Game Trailer: YouTube Link

- Spearheaded the overall technical architecture and best practices for the project, ensuring scalable and maintainable code across gameplay systems, AI, and graphics.
- Proactively tackled complex, unforeseen technical issues and facilitated quick, effective solutions to keep production timelines intact.
- Collaborated closely with artists, designers, and programmers to align on technical requirements, resolve challenges, and maintain clear communication to keep the project on track.

MOMOTOWN

4 Months | 2023

Graphic programmer & 2D artist

Game Trailer: YouTube Link

- Built a streamlined rendering pipeline that processed 2D sprites, backgrounds, and effects efficiently, reducing load times and memory usage for a seamless player experience.
- Stepped up to cover responsibilities as a 2D artist after a team member's departure, creating sprites, backgrounds, and visual assets that aligned with the game's art style and thematic vision.
- Created responsive control schemes that allowed players to easily navigate menus, execute actions, and interact with game elements, enhancing overall user experience and engagement.
